I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to the applicable international and national governmental regulations.

Shipper's Name: _____

Signature: _____

Date: _____

November 2025

Biological Substances, Category B (UN3373)

Note: The shipper bears legal responsibility for full compliance with all applicable Dangerous Goods Regulations. This includes following the prescribed packaging and labeling instructions to ensure the safety of all individuals who handle the package before, during, and after shipment—up to the point of acceptance by the consignee. Failure to comply may result in violation of applicable laws and legal penalties.

Packaging:

1. Use triple packaging:
    a. Leak-proof primary container with specimen/ isolate
        1. Decontaminate before placing in secondary container
    b. Leak-proof secondary container with absorbent material (biohazard bag)
        1. Decontaminate after sealing
    c. **If not using exclusive courier**: a rigid outer container (box) with cushioning to prevent movement
2. All packaging steps must be done while wearing appropriate PPE (gloves, gown, face shield, etc.), preferably in a biosafety cabinet
3. For refrigerated specimens, use insulated boxes with frozen gel packs.
4. For frozen specimens, ship with dry ice and label the outer box with **UN1845** including the weight of the dry ice (kg)

Labelling:

1. Primary container:
    a. Patient name
    b. Date of birth
    c. Collection date/ time
    d. Source
2. Outer box:
    a. Shipper's name, complete address, and phone number
    b. Responsible person's name and phone number (if different from shipper)
    c. Recipient's name, complete address, and phone number
    d. Place the NPHL Category B list of contents and quantities document in a clear pouch on the outside of the box

Documentation:

1. Include a printed test request form or batch list between secondary and outer packaging.

Shipping:

1. Seal the box securely with tape
2. Schedule pickup with NPHL ground courier (800) 334-0459
3. For packaging questions, contact NPHL (402) 559-9444

Compliance:

1. Follow DOT regulations for shipping biological substances
2. Keep copies of shipping documents (physical or digital) for two years in case of inspection
